## Preface

The 2011 Roster was prepared by the Steering Committee of the Coalition for Baccalaureate and Graduate Respiratory Therapy Education (CoBGRTE) to assist students in selecting a respiratory therapy program. The roster also serves as a communication tool for existing and developing baccalaureate and graduate respiratory therapy programs. The reader is encouraged to visit program web sites and to contact each program directly for more information. New or existing programs not included on the roster should contact a member of the CoBGRTE Steering Committee with program information. Suggestions to improve the roster are welcome. An AARC approved white paper from the CoBGRTE Steering Committee, "Development of Baccalaureate and Graduate Degrees in Respiratory," can be found using the link <[http://www.aarc.org/resources/bacc\\_edu/index.asp](http://www.aarc.org/resources/bacc_edu/index.asp)>.

## **Baccalaureate Degree in Respiratory Therapy as the First Professional Degree**

A *First-Professional Degree Program* is an educational program designed to provide students who possess no prior competence in respiratory care, with the knowledge and clinical skills required to function competently as a registry-eligible respiratory therapist. Conferral of the first-professional degree requires completion of a program that meets all of the following criteria: completion of the academic prerequisites to become a registry-eligible respiratory therapist. Programs that also offer associate to baccalaureate (ASRT to BSRT) degree advancement programs have an additional "ASRT to BSRT" designation for program type. Baccalaureate programs which also offer a CoARC accredited polysomnography program option are so indicated under program type.
