

# AARC Respiratory Fly- in 2024

PACT Orientation

Michael Madison, MBA, RRT, RCP, FAARC

# Welcome

Welcome to the AARC Respiratory Fly-in 2024. By participating in this AARC Advocacy event, you are fulfilling a key role within our Democracy and fulfilling the vital role of advocacy for our profession.

- With Freedom Goes Responsibility.
- Congress depends on special interest groups to bring issue and information to them that are important to the members of the special interest group.
- The AARC is a special interest group.
- Access to our elected officials.
- Advocacy for issues that support, protect and expand our profession.

## If you are not at the table, you are on the menu!

# Our Advocacy Topics

# First and Foremost – We are Respiratory Therapists!

- You represent your State Respiratory Society and the AARC.
  - Describe briefly what your State Society does.
  - Share how many respiratory therapists there are in your state.
- Whoever you meet with may not know the skills of a respiratory therapist (RT).
- Explain how you help your patients.
  - Discuss where you work and the type of patients you treat
  - Include information on how you have changed their lives and improved their quality of life
  - Give one or two specific examples of improved outcomes – be brief
  - If you have video-taped your patients on your phone, show the interviews as a way to bring the message home.

# Supplemental Oxygen Access Reform “SOAR ACT”

## (S 3821/ HR 7829)

### Senate (S 3821)

- Senator Bill Cassidy (R-LA)
- Senator Mark Warner (D-VA)
- Senator Amy Klobuchar (D-MN)

### House (HR 7829)

- Representative David Valadao (R-CA)
- Representative Julia Brownley (D-CA)
- Representative Larry Bucshon (R-IN)
- Representative Adrian Smith (R-NE)

### Major Elements

This bill has been submitted to the US Senate and a companion bill has been submitted in the House of Representatives. The bill is supported by a broad coalition of professional associations (like: AARC, ATS, ACCP, Etc.), patient advocacy groups (like: American Lung Association, COPD Foundation, Pulmonary Fibrosis Foundation, etc.), and Durable Medical Equipment (DME) providers.

# SOAR ACT (S 3821/ H R 7829)

The SOAR Act proposes the implementation of the following Four Pillars of Oxygen Reform.

1.Ensure supplemental oxygen is patient centric.

- Change “home oxygen” to “supplemental oxygen” to ensure people requiring oxygen can live full lives outside their primary residence.
- Create a patients’ bill of rights to ensure care is focused on patient needs.

2.Ensure access to liquid oxygen for patients whom it is medically necessary.

3.Create a statutory service element to provide adequate reimbursement for respiratory therapists to ensure patients have access to their expertise.

4.To ensure predictable and adequate reimbursement and to protect against fraud and abuse, establish national standardization documentation requirements that rely upon a template rather than prescriber medical records to support claims for supplemental oxygen suppliers.

**OUR ASK: Please co-sponsor this important piece of legislation.**

# Organizations Supporting the SOAR ACT (S 3821/ H R 7829)

## Organizations In Support

Allergy & Asthma Network  
Alpha-1 Foundation  
American Association for Respiratory Care  
American Association of Cardiovascular and Pulmonary Rehabilitation  
American College of Chest Physicians  
American Lung Association  
American Physical Therapy Association  
American Thoracic Society  
California Society for Pulmonary Rehabilitation  
COPD Foundation  
The Council for Quality Respiratory Care  
Dorney-Koppel Foundation  
Hawaii COPD Coalition  
Hospice and Palliative Nurses Association  
The LAM Foundation  
NTM Info & Research  
PCD Foundation  
Pulmonary Fibrosis Foundation  
Pulmonary Hypertension Association  
Respiratory Health Association  
Running On Air  
Scleroderma Foundation of California  
TSC Alliance  
USCOPD Coalition

# Financial Details of the SOAR Act

CBO type scoring methodology by the Moran Company.

- **\$654 million over a ten-year period.**
  - \$398 million over ten years additional spending for remove Oxygen from competitive bidding.
  - \$198 million over ten years additional spending for reimbursement for respiratory therapy for Oxygen and Ventilator patients.
  - \$58 million over ten years additional spending for electronic templates for medical necessity documentation for Oxygen.

# Sustainable Cardiopulmonary Rehabilitation Services in the Home ACT

## (HR 1406/S 3021)

### House (HR 1406)

- Representative John Joyce (R-PA)
- Representative Scott Peters (D-CA)

### Senate (S 3021)

- Senator Kirsten Sinema (I-AZ)
- Senator Blackburn (R-TN)
- Senator Amy Klobuchar (D-MN)

### Major Elements

The Sustainable Cardiopulmonary Rehabilitation Services in the Home Act. This bill permanently allows services relating to cardiac rehabilitation programs, intensive cardiac rehabilitation programs, and pulmonary rehabilitation programs to be furnished via telehealth at a beneficiary's home under Medicare and was submitted to the U.S. House of Representatives by Rep. Joyce and Rep. Peters submitted the bill to the U.S. House of Representatives. During the COVID-19 pandemic, the Centers for Medicare & Medicaid Services (CMS) temporarily allowed cardiac and pulmonary rehabilitation to be delivered via telehealth under the Hospital Without Walls program. Although most tele-health waivers have been made permanent, Cardiopulmonary rehab was left out. HR 1406/S 3021 seeks to resolve this omission.

**OUR ASK:** Please co-sponsor this important piece of legislation.

# Allied Health Workforce Diversity Act

Allied Health Workforce Diversity Act is now law. It was passed by the 117<sup>th</sup> Congress in the last omnibus spending bill late last year and signed into law by President Biden. However, there were no provisions for funding this important piece of legislation.

## Summary

The Allied Health Workforce Diversity (AHWD) Act (H.R. 3320/S. 1679) authorizes assistance for increasing workforce diversity in the allied health professions, including respiratory care. It will provide grants and scholarships to eligible entities, including students from racial and ethnic minorities, to increase educational opportunities that could lead to an associate's, bachelor's, master's, or doctoral degree or even assistance to complete prerequisite courses or other preparation necessary to be accepted for enrollment in one of allied health programs. It can help to help with retention of new students coming into respiratory therapist programs to meet future healthcare needs for those with chronic and acute respiratory problems.

**OUR ASK: Support Funding of the Allied Health Professions Diversity Act.**

# Additional Topics if Time Permits

- Banning Menthol in Tobacco Products – The AARC is requesting that the Administration implement a ban on menthol flavorings for tobacco products. The tobacco industry has a long history of using menthol flavorings in their products and have target underserved populations with their marketing campaigns. We ask that the use of menthol flavorings in tobacco product be banned.

**OUR ASK: Ban Menthol in Tobacco Products.**

- Supporting adequate funding for the National Institutes for Health (NIH) - Funding for research on respiratory diseases flows primarily through NIH to various research entities in the form of research grants. The AARC supports efforts for adequate funding of NIH to support future research in respiratory diseases.

**OUR ASK: Supporting adequate funding for NIH.**

# Current Co-sponsors

Chamber	SOAR ACT (S 3821/ HR 7829)	Allied Health Workforce Diversity Act (S 4120 / HR TBD)	Cardiopulmonary Telehealth (HR 1406/S 3021)
US House of Representatives	4 (3 original)	TBD	57 (1 original)
