# 2023 WEBCAST ADVERTISING

## AARC WEBCAST AND RESPIRATORY CARE JOURNAL CAST SPONSORSHIPS

AARC Webcasts are digital, webcast presentations topics clinical in nature. These educational presentations are accredited for continuing education (CRCE) provided by content experts in the respiratory care profession. Programs are presented through our online learning management system (AARC University) to a live audience. They are then recorded and made available on-demand after the live broadcast.

AARC JournalCasts are similar to AARC webcasts in which a selected manuscript published in RESPIRATORY CARE is reviewed through a scientific lens. The presented research is dissected, and all aspects of the scientific process are reviewed, including results of the research and its impact on the practice of respiratory care.

These live programs have become widely favored by the respiratory care professionals and typically attract 500-800 participants. Many of our more popular broadcasts are archived and accessed 100's of times over subsequent months/years.

Your sponsorship includes a branded (static) image of your choosing imbedded into the slide deck at the onset of the presentation. It is also accompanied by a 30-second; narrated ad read by an AARC staff member. Logos and product placement are welcome during this branded exposure.

You can find webcasts currently at <http://www.aarc.org/upcoming-programs/>.

## ADVERTISING SPONSORSHIPS OF NON-AARC EDUCATION WEBCASTS

### RATE: \$5,500 (DISCOUNTS FOR VARIOUS PARTNER LEVELS)

This sponsored opportunity is near identical to an AARC JournalCast, however the sponsor selects a peer-reviewed article published in a scientific journal other than RESPIRATORY CARE. The AARC must approve the proposed article/journal and controls the selection of both the presenter and moderator.

This opportunity is ideal for equipment manufacturers or pharmaceutical companies whose products or medications have shown positive outcomes in a manuscript published in a reputable, peer-reviewed, scientific journal (e.g. NEJM, JAMA).
